BOONIE BRIM

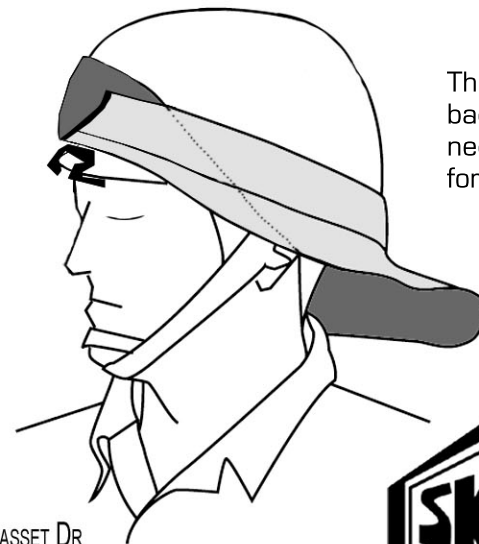

STAY COOLER AND PREVENT SUNBURN

HELPS BREAK UP THE HEAD AND
SHOULDER SILHOUETTE
NSN 8415-01-531-2630

**SIMPLY PULL THE BOONIE BRIM DOWN
OVER YOUR HELMET TO THE LOWER EDGE.**

For use in MOUT operations it is necessary to reconfigure the Boonie Brim. Fold the front inward and up behind the elastic. Place the folded part over the NVG mount and pull the Boonie Brim down to the lower edge of your helmet. The folded part will partially conceal the NVG mount, making it hard for the enemy to see it.

This allows shade on the back and sides of your neck while allowing good forward visibility.
